

Eltec, a Groupe Element company, is hiring several key positions as we expand our manufacturing footprint and augment our employ base.

Eltec is a Canadian manufacturing success story, based in Val d'Or Quebec. We will soon be celebrating our 10 year anniversary with a large investment in our manufacturing facilities and the people that build our forestry harvesting equipment.

Interested candidates should apply by sending your CV directly to our General Director of operations, Stephane Bergeron: [pelement@tecelement.com](mailto:pelement@tecelement.com)

Welders:

We are looking for several certified welders to join our team. Welding is mostly comprised of Mig work on clean steel for new fabrication. You should be comfortable working in a variety of welding positions, working exclusively indoors. Most of the work is focused on large scale work fabricating the components to our heavy equipment machinery. You are capable of clean, deep penetration weld work that can sustain the heavy strain our customers expect from our equipment. You should be able to read mechanical drawings and follow a plan to make your work as efficient as possible. You are also conscious of safety procedures.

We are willing and able to train people that demonstrate a willingness to learn and augment their skills.

What we offer:

- Competitive salary
- Complete insurance plan
- Employer contributions for retirement savings plan
- Favourable work schedule
- 

Interested Candidates should send their CV directly to Stephane Bergeron: [pelement@tecelement.com](mailto:pelement@tecelement.com)
